WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

TNG TARGET NUMBER:	5109	SESSION NUMBER:	1 of 1
DATE OF SESSION:	19 OCT 88	DATE OF REPORT:	19 OCT 88
START:	0834	END:	1447
METHODOLOGY:	CRV	VIEWER IDENTIFICATION:	025
EVALUATION:	/	MONITOR:	018

1. (S/NF/SK) SITE: [REDACTED] SG1A
2. (S/NF/SK) MISSION: To access and describe the target using stages I through VI, with particular attention to Stage VI modeling techniques.
3. (S/NF/SK) VIEWER CUEING: "Site is training target #5109."
4. (S/NF/SK) COMMENTS:
- a. Inclemencies: None reported.
- b. 025 experienced a tremendous amount of AOL throughout this session. All stages, from 1 through 6 were heavily affected. 025 received and recorded many accurate perceptions, but, almost without exception, they were then colored by the AOL and interpreted incorrectly. A long break was taken over lunchtime, and the session was resumed at 025's insistence, out of desire to resolve the target. The afternoon session was as laden with AOL misinterpretation as the morning session, and no satisfactory results were obtained, even though many very accurate perceptions were received.
- c. 025 was briefed on the dangers/problems of AOL, using the session transcript as example. Regrettably, there is no known cure for such times as this, so the briefing served only to make 025 aware of the fact that such things happen to everyone, at some time or another.

5. EVALUATION:

a. Teacher's: O25 performed as well as possible in stage 6 modeling (see rotary top and camouflage design on model in feedback photo), as well as on an allegorical scale line with which he/she got the information that the site was governmental artillery (see page 23), and immediately denied the information (see page 24), because it did not fit the AOL. AOL plagues all viewers from time to time, and no way has been found so far to completely control it. Therefore, under the circumstances, it should be said that O25 performed as well as was possible in this session, and did learn a valuable lesson about how destructive AOL can become when allowed to run rampant.

Summary

The target is an object with a circular barreled portion and a grooved machining pattern on it. The object is a decoration or ornament and has been on display, but is used with meaning on particular occasions (time specific). Organized association and bright lights. This object is composed of different parts and is motion related (it turns). This object was put together for use by man only. The object is special and precious and has a significant meaning. The original was genuine and expensive. A replication of this is made of different, less expensive material. The allegorical time line indicated that this was a government artillery object for protection. This object is representational of people for people and associations.
